

02.05 W: Course Introduction, Data Analytics Lifecycle [Syllabus, EMC ch 1-2, PDSH Intro]

Completion requirements

- Topics:
 - **Welcome!**
 - **What is data science?**
 - Software engineering vs machine learning engineering vs data science vs data analytics
 - A first look at the Data Analytics Lifecycle
- Reading:
 - [Course Syllabus](#)
 - EMC Chs. 1-2
 - *Note: Yes, this is a little long. In this case, try to finish it by the weekend. It will give you a good overview of what this course is about.*
 - [PDSH Preface](#)
- Resources:
 - [What is data science? \(Edureka.co\)](#)
 - [But what is this machine learning engineer actually doing?](#)
 - [Counterpoint: Why so many data scientists are leaving their jobs \(Towards Data Science\)](#)
 - [The Data Science Venn Diagram \(Drew Conway\)](#)
 - ["Thanks to ML algorithms, the robot apocalypse was short-lived"](#)
 - [The genesis of the EMC data analytics lifecycle](#)
 - [Mathematical Modeling \(Arnold Neumaier\)](#)
