

03.19 W: Behold, the Perceptron!

Completion requirements

- Topics: **Behold, the Perceptron!**
 - Perceptron classifier
 - Linear models: perceptron vs. logistic regression
 - MLPs (simple artificial neural networks)
 - What can neurons learn?
- Reading:
 - ["What the h*** is a perceptron?"](#) [Towards Data Science]
- Resources:
 - ["Crash Course On Multi-Layer Perceptron Neural Networks"](#)
 - ["Approximations by Superpositions of a Sigmoidal Function"](#) (G. Cybenko)
