

02.14 F: Demo: Doing More with Pandas [PDSH 3 revisited]

Completion requirements

- **Topic: Doing More with Pandas**
- Reading: [PDSH Ch. 3](#) to the end of the chapter
 - Note: Again, take notes as you read through the chapter. Ideally, read it with a Jupyter Notebook opened. You will get much more acquainted with the pandas tool in the lab. However, the more time you spend working through the chapter, the faster you will complete **all** of the future labs.
- Resources (see above)
