

03.07 F: Nearest neighbor methods (kNN)

Completion requirements

- Topics: ***k*-nearest neighbors (kNN)**
 - Parametric vs non-parametric classifiers
 - Distance metrics
- Reading:
 - [ML Basics with the *k*-Nearest Neighbors Algorithm](#) (Onel Harrison, Towards Data Science)
 - [Most Popular Distance Metrics Used in KNN and When to Use Them](#) (Sarang Anil Gokte, KDnuggets)
- Resources:
 - [Distance \(Wikipedia\)](#)
 - [k-nearest neighbors algorithm](#)
 - [Nearest Neighbors \(sklearn\)](#)
